

Agricultural Land Entry Biosecurity Kit for PEI Watershed Workers

Personal Protective Gear

Item	Purpose/Notes	Cost Estimate
Splash Proof Safety goggles	Eye protection for handling disinfectant concentrate	\$7.00
Disposable nitrile gloves or rubber gloves	For handling disinfectant concentrate and during disinfection process	\$0.12 each for disposable or \$3 for rubber gloves
3 tier plastic organizer (optional)	Container for 3 sizes of disposable gloves	\$3 ("Dollar Store")
Copy of disinfectant label and MSDS Sheet	For reference. To be kept in a safe place in the field vehicle.	
Dated and sealed water bottle with a pop top	For use as an eye wash	

Biosecurity Kit

Item	Purpose/Notes	Cost Estimate
Empty 30 load laundry detergent bottle	For holding and measuring the disinfectant concentrate	\$2.30 ("Dollar Store")
Box of 18 3 mil 35cm x 48cm clear "Contractor Bags" or roll of plastic and scissors to cut to measure	For creating clean zone	\$14.00
15 liter rectangular pail	For washing boots	\$9.00
20 liters water jug	For clean water for wash up and to refill sprayer if needed	\$14-\$16
2 gallon sprayer	For application of diluted disinfectant	\$22-\$29
2 scrub brushes	For cleaning boots	\$3 ("Dollar Store")
6 pack of screwdrivers	For cleaning tread of boots	\$3 ("Dollar Store")

The estimated cost of a self-contained biosecurity Kit will run between \$80 and \$90 taxes in less protective gear.

Option for a smaller kit if space is an issue or for one person is 1 gallon sprayer and 10 litre water jug. Harder to find and only a small cost saving, less \$7 for the sprayer and \$2 for the water jug.
